ABOUT VALMA POLL DORSETS

Foundation flock: First established in 1954 by Lyell Stuart and then daughter and son-in law, Keith & Anne McLauchlan. Continuing today with my family, Caroline, Beau and Oscar.

Our continued success over so many years has come from our clients making money out of their Valma purchases and our love of breeding stud stock. Each year we seek a very wide range of important bloodlines, thus giving our clients a continuity of desired traits from a broad gene pool and allowing us to assess their performance against our own bloodlines.

A measure of our present flock status is reflected in the number of Poll Dorset studs throughout Australia that use Valma sires and the continual high standing against all terminal sires in across-flock comparisons on Lambplan. Our breeding program is very commercially orientated – as well as the obvious carcase and growth rates that the industry strives for, finer fronts for lambing ease, longer bodies for carcase weight and mobility.

What goes into getting a ram into our sale:

- It starts with Genetics: Mating and recording: sire / dam and their pedigrees.
- Birth wt taken within hours of being born.
- Weaning wt recorded – Lambplan takes into account-birth type – whether a triplet, twin, single-sex and factors this into their equation for giving a wean wt figure.
- Post weaning wt/fat score and muscle scan – done by independent assessor. Only animals run under the same conditions such as feed can be compared.
  For this reason we run all the ram lambs in one group until all Lambplan assessments have been done.
- Physical assessment by breeder and agent at cataloguing.
- Only the best make the sale day out of a stud ewe base of 900 - all recorded. As stud breeders on Lambplan we do this so you can be assured of getting the best possible rams we can produce.

Why buy Valma Poll Dorset and White Suffolk Rams?

- ✓ Suited to Tasmania's climate
- ✓ Clean points/downs wool
- ✓ Fine shoulders and long bodied
- ✓ Early turn off of lambs
- ✓ Quick growth rates
- ✓ Strong maternal instincts
- ✓ High fertility
- ✓ Comprehensive recording accuracy
- ✓ Proven records with repeat clients

It's a family business, with the boys now playing a big role.

ABOUT VALMA WHITE SUFFOLKS

We see the White Suffolks as complementary to our Poll Dorsets, giving our clients the additional options when buying rams suitable for smaller merino ewes, maiden ewes and retaining ewe lambs.

We are constantly infusing top Australian genetics via AI into our stud in an attempt to continue making genetic gains. In addition we participate in Sheep Genomics testing, which assists in building our Lambplan data accuracies as well as establishing eating quality traits. Structure remains our foremost criteria for our flock.

Detpa Grove 240715' purchased in 2025 for $60,000 in a syndicate. We are very impressed with his progeny and we look forward to having them on offer at next years sale.

MEMO OF WHITE SUFFOLK SIRES
